Protect your sight and continue to do the things that you love

Enjoy continuous reassurance with affordable private care tailored to your lifestyle.

About OcuPlan

Our mission is to protect people's sight by making private eye care **affordable, rapid and truly accessible.**

OcuPlan was founded by eye care professionals who saw first-hand the risks of delayed specialist care and cost-prohibitive private treatment. Whether you are managing a long-term eye condition, have a family history of conditions like glaucoma, or simply want a fast second opinion for peace of mind, we bridge the gap.

We solve the hurdles of traditional care by delivering expert consultant reviews **in as little as 5 days,** ensuring your care always comes from a specialist in your specific condition.

By cutting out stressful hospital visits and reducing costs, we **save you hundreds of pounds** a year compared to traditional private care.

And, your care is entirely on your terms. Choose our **rapid remote consultation reviews** for swift expert feedback from the comfort of home, or our **traditional in-clinic reviews** for face-to-face reassurance.

Is OcuPlan for you?

OcuPlan helps protect your vision, whether you are managing an eye condition or seeking proactive peace of mind.

Whether you have been diagnosed with a chronic eye condition or want to track your eye health due to a family history, we are here to protect your vision. Regular monitoring at least once every 12 months is key to reducing the risk of sight loss. OcuPlan gives you fast, affordable access to expert care, keeping your future in clear focus.

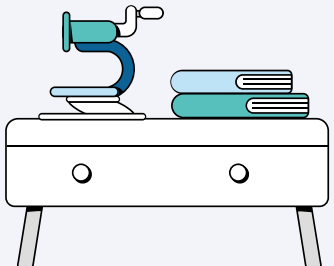

Who we help

- **Those managing long-term eye conditions** who need regular, expert consultant monitoring without the hospital waiting times.
- **Individuals with a family history** of eye hereditary diseases who want to proactively track changes before symptoms appear.
- **Anyone seeking peace of mind**, a quick specialist review, or a reliable second opinion on their eye health.

Conditions we monitor

- **Glaucoma**
- **Age-related macular degeneration**
- **Diabetic Retinopathy**
- **Other chronic or hereditary eye health concerns**
  - Epiretinal membranes
  - Previous vein occlusions
  - Dry eye patients
  - Patients needing more peace of mind

We help people manage existing conditions and protect their future sight. If you'd like to discuss if OcuPlan is right for you, please call us on 0207 173 5200.

Your care options
Remote Consultant Report

Get expert reassurance without the hospital waiting room. Your local OcuPlan optometrist simply takes high-quality scans of your eyes and securely shares them with a leading specialist consultant for a thorough digital review.

Within just 5 days, you receive a thorough report with expert feedback and advice. It's the fastest, most convenient way to keep your vision monitored without ever having to step foot in a hospital.

What's included?

- **In-depth eye tests**
  OCT, visual field, eye test & pressure test at you local optician.
- **Consultant analysis**
  A Specialist Consultant reviews your tests and scans.
- **Comprehensive report**
  You receive a detailed report with personalised advice on protecting your vision.
- **Recommended next steps**
  Your consultant will recommend when you next need to visit your optician and consultant.

How does it work?

1. **Eye Test**
   Visit your local optician and have comprehensive eye tests carried out.
2. **Consultant Review**
   The scans are sent to our consultants automatically for them to review your test results.
3. **Report Provided**
   Within just 5 days, your personalised comprehensive report is provided with advice on managing your condition.
4. **Optician Call**
   Your optician will call you to dicuss the report.

Benefits

Swift results
Expert feedback in days, not months

Maximum convenience
No hospital visit, fitting perfectly around your life

Specialist care
Reviewed exclusively by a consultant matching your exact needs

Your care options
Traditional in-clinic review

If you prefer personal, in-person care, our traditional in-clinic reviews offer the perfect balance. Just like our remote service, your local OcuPlan optometrist performs all your initial eye tests and captures your vital scans locally. Afterward, you will attend a scheduled appointment to see a specialist consultant in a clinic environment.

This gives you the opportunity to discuss your results face-to-face, ask any questions, and receive direct expert reassurance. It's the ideal choice for anyone who values that personal, hands-on touch for their eye care.

What's included?

- **In-depth eye tests**
  OCT, visual field, eye test & pressure test at you local optician.
- **In-person consultation**
  A face to face meeting with a local consultant specialising in your condition to discuss your scan and offer advice.

from £24.99 per month

How does it work?

1. **Eye Test**
   Visit your local optician and have comprehensive eye tests carried out.
2. **Consultant Review**
   The scans are sent to our consultants automatically ready for your in-person consultation at your local hospital.
3. **Continuity of care**
   From that point onward you'll see your consultant and optometrist once, twice or three times per year depending on your care package.

Benefits

Face-to-face care
Discuss your eye health directly with a specialist consultant

Cost Effective
Pay monthly rather than hundreds upfront

Total reassurance
Ideal for complex questions or when you just prefer an in-person conversation

OcuPlan customer stories

Peter's Story

"I save £70 per visit, which is one heck of a saving!"

★★★★★

Peter injured his eye 30 years ago gardening, fortunately his glaucoma was identified at this point, meaning that he could receive the care that he needed early. Peter joined OcuPlan for peace of mind and cost saving. He'd been paying for private eye care but then found out that OcuPlan allowed him to save up to £70 on each visit.

Signing up to OcuPlan means that Peter now receives the care that he needs to monitor and look after his glaucoma for an affordable monthly price.

Pam's Story

"When you get to my age some people need help. Things need to be simple and this was simple!"

★★★★★

Pamela is being monitored through OcuPlan once a year for high ocular pressure and suspected glaucoma. She's also diabetic, therefore needs regular monitoring to prevent diabetic retinopathy. Pam has suffered from eye issues most of her life and has experienced care privately and through the NHS. Last year she was recommended by her consultant to join OcuPlan.

OcuPlan provides her with the peace of mind that she needs that her eyes are being monitored regularly, and she feels more secure knowing that financially she can spread the cost over 12 months.

Shirley's Story

"It's peace of mind that I'm being looked after. Eyesight is priceless!"

★★★★★

Shirley joined OcuPlan following two cataract operations. During which she discovered that she had glaucoma. Shirley was struggling to see when driving, especially in the dark and unfortunately her private medical insurance didn't cover the monitoring of glaucoma, meaning that she had to cover the cost of her eye care.

Shirley discovered OcuPlan and signed up allowing her to regularly see her optometrist for OCT scans and visual field tests and her eye consultant for monitoring and advice. This provided the peace of mind that she needed that her glaucoma was being treated correctly.

Our nationwide network of professionals

OcuPlan is the largest joined up network of opticians and eye consultants in the UK. All professionals have the expertise and equipment available to provide the highest quality of care and are aligned with our goal of preventing avoidable sight loss.
